MASONRY SAW CM450 JUNIOR

NORTON CLIPPER CM450 JUNIOR

FEATURES AND BENEFITS

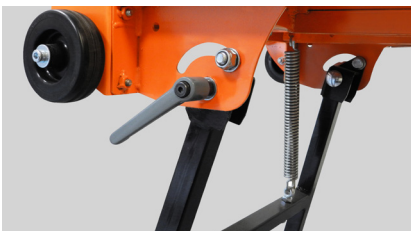

- Cuts through large materials thanks to 600mm cutting length and 170mm cutting depth.
- Handy transport wheels and adjustable folding legs allow the machine to be readily moved and easily stored.
- Improved water system separates used water containing dust particles which extends the lifetime of the water pump.
- The new water pump plug saves time when changing the water pump as there is no longer a requirement to open the switch and use electrical connections.

The Norton Clipper CM450 Junior is a robust and easy to use masonry saw. Its large surface space offers a solution for cutting large building materials. The machine features adjustable folding legs and transport wheels for easy maneuverability on a worksite and stability on uneven floors. It includes a water settling system which separates the water pump from used water and helps preserve the pump's lifetime.

PRODUCT DATA

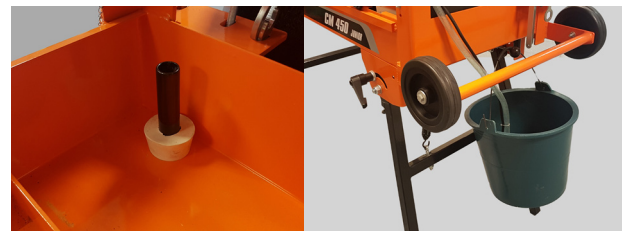

Item No.	70184608625	Supply Voltage/ Power	230V 1~/2,2kW (3hp)	Max. cutting depth	170 mm
CM450 Junior & Pro Universal Laser blade Ø450	70184631570	Fuse Generator	16A / 6 kVA	Max. cutting length	600 mm
		Blade x bore	450 x 25,4 mm	Max. material height	250 mm
		Dimensions (LxWxH)	1390 x 750 x 1480mm	Table size	460x400 mm
		Dimensions (folded legs)	1390 x 530 x 800mm	Hand Arm Vibrations	< 2,5 m/s ²
		Weight	97kg	Sound power / Pressure level	89 dB(A) / 78 dB(A)
				Tool speed RPM	2100 min ⁻¹

FOLDING FEET

EASY WATER PUMP PLUG

WATER SETTLING SYSTEM

DIAMOND BLADE RECOMMENDATIONS FOR CM 450 JUNIOR

Substrate / Material	UNIVERSAL
Recommended Product	PRO UNIVERSAL LASER
Blade x Bore	450 x 25,4mm
